Group Contributions

It has been agreed, by all members of Team 5, that **everyone has equally contributed** to this Capstone project. As there are far too many components to FISHMO SAAMS to list, we have condensed the list below to mention each member's specialization in this project.

Team Members	Back-End	Front-End	Hardware	Integration	Documentation
Brandon Da Silva (Back-End Lead)	Server Setup & Maintenance Server's Compiler and Software Installation Database Setup			Between the Website and the Database	All Documentation All Peer Document Evaluations
Daniel Esteves (Hardware Lead)			Raspberry Pi and Sensor Setup and Maintenance Analog Sensors and LED Scripts PCB Installation and Setup All PCB & Raspberry Pi Schematics	Between Raspberry Pi and Server	All Documentation All Peer Document Evaluations
Rhett Amin (Front-End Lead)		Web Layout Design Structuring Styling DB integration		Between the Website and the Database	All Documentation All Peer Document Evaluations
Michael Liut (Integration Lead)	Server Permissions		Raspberry Pi Setup Sensor Setup & Maintenance Analog Sensors and LED Scripts PCB Installation and Setup	Between Raspberry Pi and Server	All Documentation All Peer Document Evaluations
